

Manas Shah

Software Engineer - AI Systems Developer

Mumbai, India / +91 93241 25911 - manasshah1210@gmail.com - [Linkedin](#) - [Github](#) - [Portfolio](#)

EDUCATION

B.Tech in AI/ML — Dwarkadas J. Sanghvi College of Engineering <i>Honours in Immersive Technology</i>	Expected 2028 SGPA: 9.10
Diploma in Computer Science Engineering <i>Shri Bhagubhai Mafatlal Polytechnic</i>	2022 – 2025 CGPA: 9.47

EXPERIENCE

Software Engineer Intern - Cogniify (Remote) <i>Los Angeles, USA</i>	Feb 2026 – Apr 2026
- Built and deployed 5+ AI-powered applications across various domains including insurance claim automation, FinOps analytics, healthcare insights, digital twins, and industrial monitoring systems. - Developed backend APIs and AI-driven data pipelines that automated data processing workflows, reducing manual operational effort by 40%. - Delivered production-ready prototypes used for client demonstrations and product experimentation, expanding solution offerings across multiple industry domains.	
Flutter App Development Intern - HopHead Apparels <i>Mumbai, India (Hybrid)</i>	May 2024 – June 2024
- Developed mobile application features using Flutter, improving application usability and responsiveness. - Collaborated with the development team to test and integrate modules, reducing UI bugs and improving feature stability during testing cycles.	
Artificial Intelligence Intern - Acmegrade <i>Mumbai, India (Online)</i>	June 2023 – August 2023
- Implemented supervised learning models for regression and classification using Python and Scikit-learn. - Built machine learning pipelines including data preprocessing, feature engineering, model training, and evaluation using metrics such as accuracy and ROC-AUC.	

SKILLS

Languages: Python, JavaScript, Java, C
Frameworks & Frontend: React.js, Next.js, HTML, Tailwind CSS, Three.js
Backend & APIs: Node.js, FastAPI, REST APIs, API Integration, OpenRouter API
AI & Data: Scikit-learn, XGBoost, CatBoost, PyTorch, TensorFlow, Pandas, NumPy
Databases: Firebase, SQL, NoSQL
Tools: Git, GitHub, Vercel, Netlify, HuggingFace
Blockchain: Solidity, Smart Contract Development

PROJECTS

Claims Orchestration System - Cogniify - Live Demo	2026
<i>Tech: Next.js, OpenRouter API, Firebase, REST APIs</i> - Built an AI-driven insurance claim orchestration platform automating claim analysis and decision workflows with API integrations and scalable Firebase-based data management.	
FinOps AI Analytics Platform - Cogniify - Live Demo	2026
<i>Tech: Next.js, OpenRouter API, Financial Data Processing, REST APIs</i> - Built an AI-driven insurance claim orchestration platform that automates claim analysis and decision workflows using API-driven AI pipelines and scalable Firebase-based data management.	
Micro-Vibration Line Defender - Cogniify - Live Demo	2026
<i>Tech: Next.js, OpenRouter API, Predictive Analytics, REST APIs</i> - Built an industrial monitoring system that detects abnormal micro-vibration patterns using AI-assisted anomaly detection pipelines for predictive maintenance.
